DESERTMICRO ANNOUNCES 2011 TRADE SHOW SCHEDULE

JACKSONVILLE, Fla. (February 28, 2011) – [DesertMicro™](#), the Florida-based provider of leading-edge software solutions for the waste, recycling and logistics industries, has announced their schedule of shows for 2011.

DesertMicro will be exhibiting software solutions for waste and recycling industries at the following events:

- Residential Recycling Conference – Nashville, TN – March 29-31 – Booth #306
- ISRI Convention and Expo – Los Angeles, CA – Booth #500
- Waste Expo – Dallas, TX – May 9-12 – Booth #1925
- WasteCon – Nashville, TN – August 23-25 – Booth #444

"We've targeted these venues because they will allow us to best leverage our engagement in the waste and recycling industries, offering our core software solutions and showcasing our new and innovative products to the marketplace," said Barry Grahek, CEO and president of DesertMicro.

DesertMicro will be exhibiting and demonstrating the following applications and more:

- RouteManager: DesertMicro's premier software that integrates routing, dispatching, billing, customer management and document management
- RecycleManager: Tracking and Grading of Inbound, Sorting and Outbound materials
- PocketManager: GPS and Handheld Driver Terminal
- TruckManager: GPS and Onboard Computer Displays
- WebManager: Online Bill Presentment and Payment Service
- StreetManager: GIS Route Mapping and Optimization

-more-

For details on our show participation or to schedule a full demo, please call (800) 547-7082.

About DesertMicro

With more than 20 years of experience, DesertMicro offers high-level expertise in software application, developing comprehensive, integrated software products customized to meet companies' needs around the world. The "MANAGER" suite of fully integrated applications – RouteManager, RecycleManager, HazmatManager, ScaleManager, PetrolManager, WebManager, PocketManager and TruckManager GPS and AVL tracking systems – was designed and built in-house and can be implemented together as a complete software solution or individually as needed.

DesertMicro's innovative developments continuously raise the bar for software solutions that are used to manage and increase productivity of businesses in the waste hauling and recycling industry. For more information on DesertMicro, please visit www.desertmicro.net or call (800) 547-7082.
